

Lesson One: WILD EARTH ACADEMY

Good Food. Strong Bodies. Happy Hearts.

*A Curriculum Companion Guide for
Educators and Young Foragers*

The Core Thesis: Food is Medicine

Prevention is
better than cure.

Nature provides everything we need to heal and grow. This module is designed to help learners discover the healing power of everyday plants, transforming the garden into a natural pharmacy.

Mapping Your Palate: Understanding Self

Before we explore the wild, we must understand our own tastes.
Every forager starts by identifying what fuels them.

I Like...

I Don't Like...

*Write down the names of
healthy foods you enjoy.*

*Identify the foods you are
still learning to love.*

Meet the Plant Heroes: A Forager's Taxonomy

Everyday Fruits

Apple

Edible Skin!

Banana

Rich in Vitamin C

Lemon

Garden Herbs

Mint
